

# **Resident Health Portal**

**Electronic Medical Record** –is a computerized medical record created in an organization that delivers care, such as a hospital or physician’s office.

- Every resident who signs up with the Medical Center has an Electronic Medical Record.

**Resident Portal** – a view into the electronic medical records

- The intention is to provide a complete and accurate summary of an individual’s medical history which is accessible on line.
- It not the same as the electronic medical record.

## **Functions of the Resident Health Portal**

- Access to your Medical Records on the web
- View Medical Problem list
- View Laboratory Results
- Make Appointments
- Request prescription refills
- Securely send and receive messages from your physician
- Provide access to your family or outside doctors
- 

## **Process for signing up**

- Go to the front desk at the Medical Center and ask for a PIN number for the resident health portal
- The PIN number allows you to log into the website
- We only give this to you in person
- It’s only good for 30 days
- Problems with PIN numbers and first time logging in

**Questions??**
